

**ASTM F15.42 on Furniture Tipover
West Conshohocken, PA
May 8, 1997**

Log of Meeting

Date of Log Entry: May 20, 1997

Source of Log Entry: Susan Kyle, Ph.D. *SK*
Project Manager, CPSC

Attendees: See attached list

Summary of Meeting

The meeting was chaired by Mr. John Blair representing ASTM F15 Committee on Consumer Products. Comments received on the subcommittee ballot of the draft standard were discussed. It was agreed that units would be tested only when loaded, no unloaded testing would be performed. It was agreed that a test platform surface would be defined. It was also agreed that the dimensions of the 50 pound load would be specified. A "saddle bag" type design was agreed upon.

Mr. John Blair will draft revisions to the document and circulate a revised version to attendees to confirm that the correct changes were incorporated. Mr. Zoelkowski will then circulate copies of the draft standard to a number of manufacturers so that they can begin testing to the standard. Manufacturers will submit their comments on the draft standard to Mr. Zoelkowski at a meeting in late June. Mr. Zoelkowski will submit comments to ASTM in early July.

Depending on the nature of the comments received from the manufacturers, either another subcommittee meeting will be scheduled to respond to comments, or the draft standard will be balloted.
